# DOBIVALET

The platform guides users toward career paths that align with their true potential, using data-driven assessments and AI-powered support. Our goal was to ensure the website provides clarity and confidence, helping users navigate every stage of their career with ease.

# GOVINDAM

We developed a powerful backend system for Govindam to optimize their operations, covering everything from land acquisition and development to the leasing and selling of premium flats within the township. Our solution includes an integrated township management system, lease management tools, and a dedicated app for flat owners to monitor details, manage transactions, and receive real-time updates.
