

## Services

Custom configuration, assembly and system test

Hardware and software development for embedded platforms

Windows, Linux and Real-Time Operating Systems support

Hardware versions / BIOS / firmware freezing

Systems lifecycle and obsolescence management

EN50155, EN60601, etc. certifications management

Design and mechanical adaptations

## Markets

TRANSPORTATION

TRAFFIC

DIGITAL SIGNAGE

SURVEILLANCE

AUTOMATION

ENERGY

DEFENSE

## Novatronic Sistemas

Novatronic Sistemas is a high value added distributor of worldwide leading embedded computing manufacturers.

Focused in highest technology demanding markets like Transportation, Aerospace, Defense, Telecommunications and Industrial Automation, Novatronic's technical expertise is strong.

Our product portfolio of Industrial Computers, Embedded systems, BOX Pcs, Computer on Modules, Panel PCs, Displays, Fieldbus boards and SSD storage modules, covers all the needs of the most rugged environments.

We combine the best hardware choice with the offer of value added services like Consultancy, Hardware customization, Software development, system mounting and testing, as well as Post Sales Support and RMA Management.
