SERVERS

MedSignals
Pill Monitor / Gateway

- SMS Text Alerts**
- Phone Call Alerts**
- Email Alerts**
- Export To EMRs**
- Rx Refill Alerts**
- Faxes**

MedSignals® provides 3-in-1 service:

1. a medication reminder/monitor
2. a hub for wireless vital sign monitors to upload readings
3. a multi-language voice for instructions and alerts.

- MedSignals reminds when time to perform self tests at home.
- MedSignals speaks the test results aloud (in several languages), enabling any Bluetooth monitor to “talk.”

System Communications
